

West Muskingum Local School District

Plan for Safe Return to In-Person Instruction and Continuity of Services Plan

Contact: Chad Shawger, Superintendent cshawger@laca.org (740) 455-4052

The West Muskingum Local School District has been providing face-to-face instruction, five days a week, to our students during the 2020-2021 academic year. We have maintained our standard level of rigor and relevance as in previous years. We consistently assess our students and make data-driven decisions based on these assessments. If a student needs additional support we provide that for them – this year has been no exception. We have prioritized the social and emotional well-being of our students during this pandemic and are providing supports where appropriate.

As we enter the summer months, students have access to online reading programs such as Lexia, math programs such as Zearn, and full credit learning options through Odysseyware.

The West Muskingum reopening plan as introduced in July 2020, with stakeholder input, will continue to be the district basis for in-person learning and continuity of service to return to schools safely. The plan will be updated by the district as needed.
